

## What is Teaching Strategies GOLD?

- Authentic, ongoing and observation-based assessment system for Preschool aged children.
- Teaching Strategies GOLD supports development and learning that include predictors of school success and school readiness standards. The objectives are aligned with the Common Core State Standards and Illinois Early Learning Standards.
- A digital developmental profile of each child to answer the questions, “What does this child know? What is he or she able to do?”
- Provides ongoing information to plan meaningful learning experiences for all students and meets individual needs, both at home and at school.
- Creates a Development and Learning Report for parents/guardians that will be sent home each trimester (3 times a year).

***The “Development and Learning Report” was designed for sharing information with each student’s family. It provides narratives that explain the child’s knowledge, skills, and behaviors in relation to each objective or dimension and next steps in the student’s development.***
